

Reading Long Term Overview – 2023/2024

INTENT	We aim to develop a love of books and reading from the beginning of child’s learning journey with us and value the role of parents as partners in this vital task. Our pupils are encouraged to read for pleasure and read widely. We hear our children read regularly both individually and as part of whole class reading. We also value reading for its impact on vocabulary development and comprehension skills. We read aloud to our children daily (10 minute read). Vocabulary is taught as part of whole class reading, English lessons or 10-minute read.

Article 28	Every child has the right to an education. Primary education must be free and different forms of secondary education must be available to every child. Discipline in schools must respect children’s dignity and their rights. Richer countries must help poorer countries achieve this.					
Article 29	Education must develop every child’s personality, talents and abilities to the full. It must encourage the child’s respect for human rights, as well as respect for their parents, their own and other cultures, and the environment.
